

## The SJB Play Times ☺

Hello there my fellow friends! Yes we are most certainly back! As you know this week has been World Book Week! Before we get into detail let's meet this weeks team! It's the lovely Holly Dennett, Raeph, Oscar, Leo, Maisie and Ka Wun! As I was saying...

World Book Week has happened and the children of SJB have enjoyed the various events. Do grab some coffee and biscuits snuggle up and read this Book Week's special!

### Fortnightly Fact !

The Little Prince (a children's book) has just been translated into its 300<sup>th</sup> language !

### The Joke of the Week!

What does a clock do when it's hungry? It goes back four seconds!

### A BOOK REVIEW ON... KID NORMAL!

This hilariously funny book is suitable for children 7 and over. If you want to know HOW ON EARTH the King of pineapples comes into this book then you'll have to read it.

This isn't what you would call a "classic book" although in my opinion Chris Smith and Greg James (co-writers of Kid Normal) deserve to be just as famous as Anne Frank though I know some VERY evil people will say this isn't quite fair!

I would recommend this book to very serious politicians as it helped me learn some very important lessons such as NEVER bring muffins to school. By the funny, witty Holly D!

### Barry the fish with fish fingers-book review!

Barry the fish with fish fingers is an excellent book for 2-6 year olds. With bright colours and REALLY cool characters, this book will even make the older children smile. The main character of this book is a blue fish called Barry who has fish fingers for fingers. From someone who has read it before and enjoyed it, I say that it is one of the best books in the UK!!

I really liked the plot of this strange but interesting story. I got really excited when I got the book read to me when Barry tells the fish what fingers are used for, especially when it said 'tickling'. It's all fun and games until a large crate is about to crush Puffy, a pufferfish who is really good at blowing bubbles.

I must say that the characters are unique. A fish with fingers defiantly is unique. I give this book a 4.9/5 for its uniqueness and for the plot. This was a book review by the cool and radical Maisie!

## Brilliant book week

### What is world book day?

World book day began on the 23<sup>rd</sup> of April 1995 (though it is celebrated on different days around the world) and we have just celebrated the 21<sup>st</sup> book day. It was created to try and show children how fun books can be. Did you know that over 100 countries know about World Book Day?

### How do people celebrate World Book Day?

Lot's of people celebrate book day here are some of the ways schools celebrate it. Book quizzes and costume competitions are popular choices but many schools also do swap shops and competitive cover designing.

### How can I get involved?

A great way to join in is to dress up as your favourite book character and enjoy a book.

By the wonderful and amazing Holly Dennett

## The Creatively Crazy Competition!

Hello reader, thank you for taking interest in our newspaper. Here at the SJB Play Times we realized we need a logo so we would like you to help us design one. We will be placing a box for the entries in the entrance hall way (the hallway next to the main reception), so if you would please enter not only because we get a logo but you could win a sweet prize!
