## The Uncommners by Jennifer Bell.

This is a brilliant book that you're sure to like if you're a little unusual! Belts you can fly with, lemon squeezers for light and what on Earth are vacuum cleaners doing in the sky? Well my friends there is ONLY one way to find out... Read the book!! In this book, you will follow Ivy and Seb Sparrow through the uncommon streets of Lumindor but there is something dark catching up with them and even though they don't know it yet, they are in terrible danger. The further into Lumindor (a city like no other) Ivy and her brother get the more they discover about the shadow of their past...
