

Geography KS2 Progression

	Progression	Y3	Y4	Y5	Y6
Location knowledge	<p>Locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities.</p> <p>Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time.</p> <p>Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)</p>	<p>Locate and name the continents on a World Map.</p> <p>Locate the main countries of Europe inc. Russia. Identify capital cities of Europe.</p> <p>Locate and name the countries making up the British Isles, with their capital cities.</p> <p>Identify longest rivers in the world, largest deserts, highest mountains. Compare with UK.</p> <p>Identify the position and significance of Equator, N. and S. Hemisphere, Tropics of Cancer and Capricorn.</p>	<p>On a world map, locate areas of similar environmental regions, either desert, rainforest or temperate regions.</p> <p>Locate and name the main counties and cities in/around Yorkshire.</p>	<p>Locate the main countries in Europe and North or South America. Locate and name principal cities.</p> <p>Compare 2 different regions in UK rural/urban.</p> <p>Locate and name the main counties and cities in England.</p> <p>Linking with History, compare land use maps of UK from past with the present, focusing on land use.</p> <p>Identify the position and significance of latitude/longitude and the Greenwich Meridian. Linking with science, time zones, night and day</p>	<p>On a world map locate the main countries in Africa, Asia and Australasia/Oceania. Identify their main environmental regions, key physical and human characteristics, and major cities.</p> <p>Linking with local History, map how land use has changed in local area over time.</p> <p>Name and locate the key topographical features including coast, features of erosion, hills, mountains and rivers. Understand how these features have changed over time.</p>

Place knowledge	Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America.	Compare a region of the UK with a region in Europe, eg. local hilly area with a flat one or under sea level. Link with Science, rocks.		Compare a region in UK with a region in N. or S. America with significant differences and similarities. Eg. Link to Fairtrade of bananas in St Lucia (see Geography.org etc for free and commercially available packs on St Lucia focussing on Geography).	Compare a region in UK with a region in N. or S. America with significant differences and similarities. Eg. Link to Fairtrade of bananas in St Lucia (see Geography.org etc for free and commercially available packs on St Lucia focussing on Geography). Understand some of the reasons for similarities and differences.
Human and Physical geography	<p>Describe and understand key aspects of:</p> <p>Physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle.</p> <p>Human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water.</p>	<p>Describe and understand key aspects of:</p> <p>Physical geography including Rivers and the water cycle, excluding transpiration, brief introduction to Volcanoes and earthquakes linking to Science:rock types.</p> <p>Human geography including trade links in the Pre-roman and Roman era.</p> <p>Types of settlements in Early Britain linked to History. Why did early people choose to settle there?</p>	<p>Describe and understand key aspects of:</p> <p>Physical geography, including: climate zones, biomes and vegetation belts (link to work on Rainforest)</p> <p>Types of settlements in modern Britain: villages, towns, cities.</p>	<p>Describe and understand key aspects of :</p> <p>Physical geography including coasts, rivers and the water cycle including transpiration; climate zones, biomes and vegetation belts.</p> <p>Human geography including trade between UK and Europe and ROW</p> <p>Fair/unfair distribution of resources (Fairtrade).</p> <p>Use Global Literacy to cover Fair Trade, Poverty and Education.</p> <p>Look at the Vine Trust and its impact.</p> <p>Types of settlements in Viking, Saxon Britain linked to History.</p>	<p>Describe and understand key aspects of :</p> <p>Physical geography including Volcanoes and earthquakes, looking at plate tectonics and the ring of fire.</p> <p>Distribution of natural resources focussing on energy (link with coal mining past History and eco-power in D&T)</p> <p>Expand learning using Global Literacy booklet looking at education and case studies.</p>

Geographical skills and fieldwork	<p>Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.</p> <p>Use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world.</p> <p>Use fieldwork to observe, measure and record the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.</p> <p>Learn the eight points of a compass, 2 figure grid reference (maths co-ordinates), some basic symbols and key (including the use of a simplified Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world</p> <p>Use fieldwork to observe and record the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied</p> <p>Learn the eight points of a compass, four-figure grid references.</p> <p>Use fieldwork to observe, measure and record the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied</p> <p>Use the eight points of a compass, four-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom in the past and present.</p> <p>Use fieldwork to observe, measure and record the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</p>	<p>Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied</p> <p>Extend to 6 figure grid references with teaching of latitude and longitude in depth. Expand map skills to include non-UK countries.</p> <p>Use fieldwork to observe, measure and record the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</p>
